Respected Sir

Greetings from Autodesk ATC.  
Hope you are doing well.

Thank You for Your response about MoU. I have gone through all information/Suggestions on your last email. I need to clarify few important information regarding AICTE MoU and also share the solution for all of your suggestions.

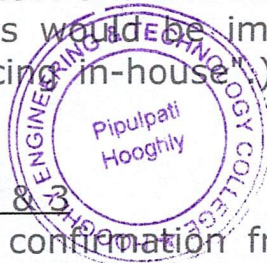

First of all I would like to inform you that this is the common Draft for MoU under AICTE Guideline ,Which our organization execute with other institute .The format should be same for all college /University . We are only authorize to change few basic information like Company & Institution Name, Address and authorized Signatory field. Apart from this few information all terms and condition should be same which we are not authorized to change .Belwo I have mention the best possible solution for your all suggetion.

Solution for your Suggestion mention on Point 1

We can mutually execute an additional Agreement (In Non Judicial Stamp Paper of 100 Rupees ) along with this AICTE MoU where We can mention this Point (The provision of installing the softwares in our laboratory be mentioned in the MOU e.g., "The softwares, which are very relevant to the streams of ME and CE besides few others, will be installed in our laboratory free of cost and the students along with faculty members and Technical Assistants would be immensely benefited in terms of getting trained and practicing in-house") , Training Rate Contract for Students etc.

Solution for Point 2 & 3

When we will get confirmation from your side about the execute both MoUs, we will change the required line i.e "The budding B.Tech. Engineers" and also put this validity clause The validity of MOU will be clearly mentioned as one year with a provision of further extension on MoU (Non Judicial Stamp paper) and send 2 hardcopy to your mention address for execution.

Principal in Charge  
Hooghly Engineering & Technology College  
Vivekananda Road, Pipulpati, Hooghly.

Sir I need to confirm one more thing which will be mention on mutual agreement if required. How your college organize vocational / industrial training for final year/pre final year students. Is it mandatory for final year or pre final year else student will decide to attend training as per their convenient.

Is it totally depend on students or it will be decide by college.

As all training and Certification fees decided by Autodesk which is depend on no. of participants every year. So if we get confirmation of no. of student for training we can able to offer best pricing for training for your student throughout the year as per MoU agreement.

Thank You

Hi Soumik,

Congratulations! You have been selected for Video Making/Editing Internship in Kolkata at Matrix International. You should hear from the employer shortly regarding your selection and next steps. In case you don't hear from them in 3-4 days, feel free to get in touch with the employer directly. For your reference, the employer contact details are given below -

**Name** :- Shreya Bothra

**Email** :- hrd@matrixinternational.in

**Phone** :- +91 8420718826

Well done! We are proud of you :)

Before you begin the internship, please go through these guidelines -

1. Always ask for a formal offer letter from the company and ensure that it includes key details such as the internship profile, duration of internship, stipend, certificate, etc.
2. We do not allow companies to charge the students for internships or offer unpaid internships (unless specially mentioned on Internshala). In case of mismatch in the details, or any issue with the internship, please report to us by visiting our help center.
3. Before you start the internship, get clarity on the performance parameters related to the stipend and certificate of completion from the employer.
4. Leaving an internship midway is considered unprofessional. If you wish to discontinue the internship due to unavoidable circumstances, please discuss this with the employer and reach a mutually agreeable solution.

Sir

I am Soumik Ghosh , a Student of CSE 3<sup>rd</sup> year (Roll no. 15). Sir, being a student, the most important thing that he lacks is real world experience. To enable me for gaining such skills, I've decided to opt for an internship. Fortunately, after many applications, I got the chance; I was shortlisted for an Interview at a company, based on Kolkata. I've passed their Interview, and the Company Matrix International has offered me a position as an In-house Video Editor.

Although being shortlisted, the company requires me to provide a NOC certificate from my College, after that they could confirm their Offer letter.

So, if you can approve my NOC for a Period of 1 month, so that I can complete my Internship at the Company. This is a quite rare opportunity for me and for my career. Thank you

Yours sincerely

Soumik Ghosh
