

Alternate sources of energy and energy conservation measures:

Solar power is one of the solutions to overcome the energy deficit in the world. The generation of solar power do not have any adverse effect on the environment.

HETC, also uses solar panel for energy conservation. In the roof of faculty block there is a 1Kwatt solar panel, which is the largest among all solar panels available in the college.

In library block there is a 30-Watt solar panel and on the roof of security block there is 70-Watt solar panel with solar lamps.

In girls' hostel and boys' hostel, we are using four solar thermal system to generate hot water. Capacity of each system is 1000 litre and it will generate the maximum temperature of 65 degree centigrade.

To minimize the power consumption, we are shifting towards power efficient equipment. Currently in our college there are more than 80 LED bulbs of 9 Watt each and 100 LED tubes of 20 Watts each and this number is increasing day by day. On replacement of old lights (40 watt), we are using new LED lights. Similarly, almost all CRT monitors are replaced by new power efficient TFT and LED monitors.

Date 10.01.2020

To,
The Chairman,
Hooghly-Chinsurah Municipality,
Hooghly

Sub: Waste management matters

Sir,

With reference to specific requirement for management of different types of wastes in our college, we would like to approach you to share your views/actions in terms of removal/management of different wastes from/at our institute.

We would appreciate your specific directions in this matter and/or interactions with the college authorities to deal with the matter.

Anticipating your favourable consideration of this appeal and quick response, we remain.

Thanking you,

Yours faithfully,

Sumanta Bhattacharyya

2nd October (Mahatma Gandhi Birth Anniversary):

The 150th Birth Anniversary of Mahatma Gandhi, the father of the nation was celebrated in 2019 with due honour along with the conduction of a workshop on Utilization of Solar Energy as part of the green initiative.

Plastic Free Campus

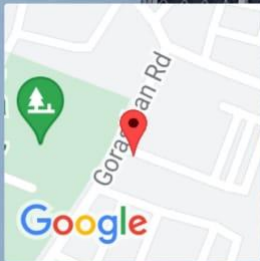

HOOGHLY ENGINEERING & TECHNOLOGY COLLEGE

HOOGHLY ENGINEERING & TECHNOLOGY COLLEGE

Vision
To develop professionally competent and socially responsible human resources by imparting quality education in the field of engineering and technology.

Mission
To impart learner-centric and comprehensive education that fosters holistic growth and encourages application of acquired knowledge in different areas of professional and social functioning, research and entrepreneurship.
To create a dynamic and innovative teaching-learning process with focus on continuous up-gradation of teaching resources, tools and technologies.
