Dear Organiser,

Many thanks to you and your Institute for being a part of the Spoken Tutorial Software training program. You have contributed in a great way to its mega success. I am writing to give you a very important piece of information. We are introducing a separate interface in the Training Dashboard of our website, the **Semester Training Planner (STP)**, that has to be completed prior to raising the Training Request. This step has been taken to ensure that all the batches belonging to the different departments and the specific semesters come into the training program, rather than just a few batches and departments. We also wish that the students are able to take training in maximum possible relevant FOSS before they graduate and leave campus. For this, planning in advance is a must and the STP will help you do it very simply. Please rest assured the process does not become more complex or difficult, in fact overall your activities to arrange the training will reduce and the training will go more smoothly.

For this the Institute will -

1. Appoint Faculty coordinator/s (FC) - so as to cover maximum departments in the Institute
2. As a first step in the Training process, each FC will **Register/ Create a login ID**

3. Second step, complete the STP with details - Dept. name/s (single/multiple), Semester number (single semester), Semester start date, FOSS Course selection method - i) Mapped with computer lab course hours, ii) Unmapped but during computer lab course hours, iii) Outside lab course hours/time-table...**N.B : Many of you have completed mapping of FOSS courses in your time-tables so this part should not be difficult to do.**
4. Third step, FC will upload a **Master Batch** (all students in that Dept. and Year), .csv file of Student details - i) Dept. name ii) Year of joining iii) First name, Last name, Valid e-mail ID, Gender
5. Fourth step, complete the **Training Request** form which is to be filled within 10 weeks of Semester start date in the case of FOSS courses that come with Online Assessment Tests. This is so that students get adequate time to completely revise the entire series of tutorials of the particular FOSS course.
6. In the fourth step, the FC will select from the **Master Batch** to create a list with the names of students who will learn the particular FOSS/s
7. In the fifth step, the FC will need to download the specified software, for that **Click below**.

[process.spoken-tutorial.org/images/1/1b/Download-Tutorials.pdf](https://process.spoken-tutorial.org/images/1/1b/Download-Tutorials.pdf) And get the lab and systems ready for the training **Click below**

[process.spoken-tutorial.org/images/5/58/Machine-Readiness.pdf](https://process.spoken-tutorial.org/images/5/58/Machine-Readiness.pdf)

IMPORTANT - Learner's Certificates will no longer be provided for FOSS courses that come with Online assessment Tests. For these courses, only Completion Certificate will be given on successfully completing and passing the test.

As before, the students must go through the instruction sheet and see the tutorials as directed in the instructions mentioned in it and also practice the commands and instruction as shown in the tutorial following the **Side by Side method** during the Training. **Side by Side means that on the screen, we keep the terminal/console window open on the right hand side for the practice and the tutorial window open on the left hand side for the learning.**

Here's wishing you the best and guaranteeing our continued support for offering the Spoken Tutorial Software training to all. If you have questions, please contact the Training Coordinator of your respective state.

Best wishes,

Shyama Iyer

Respected Sir

Greetings from Autodesk ATC.  
Hope you are doing well.

Thank You for Your response about MoU. I have gone through all information/Suggestions on your last email. I need to clarify few important information regarding AICTE MoU and also share the solution for all of your suggestions.

First of all I would like to inform you that this is the common Draft for MoU under AICTE Guideline ,Which our organization execute with other institute .The format should be same for all college /University . We are only authorize to change few basic information like Company & Institution Name, Address and authorized Signatory field. Apart from this few information all terms and condition should be same which we are not authorized to change .Belwo I have mention the best possible solution for your all suggetion.

### Solution for your Suggestion mention on Point 1

We can mutually execute an additional Agreement (In Non Judicial Stamp Paper of 100 Rupees ) along with this AICTE MoU where We can mention this Point (The provision of installing the softwares in our laboratory be mentioned in the MOU e.g., "The softwares, which are very relevant to the streams of ME and CE besides few others, will be installed in our laboratory free of cost and the students along with faculty members and Technical Assistants would be immensely benefited in terms of getting trained and practicing in-house" ) ,Training Rate Contract for Students etc.

### Solution for Point 2 & 3

When we will get confirmation from your side about the execute both MoUs, we will change the required line i.e "The budding B.Tech. Engineers" and also put this validity clause The validity of MOU will be clearly mentioned as one year with a provision of further extension on MoU (Non Judicial Stamp paper) and send 2 hardcopy to your mention address for execution.

Sir I need to confirm one more thing which will be mention on mutual agreement if required. How your college organize vocational / industrial training for final year/pre final year students. Is it mandatory for final year or pre final year else student will decide to attend training as per their convenient.

Is it totally depend on students or it will be decide by college.

As all training and Certification fees decided by Autodesk which is depend on no. of participants every year. So if we get confirmation of no. of student for training we can able to offer best pricing for training for your student throughout the year as per MoU agreement.

Thank You
